Dear Parents / Carers

As part of our science topic learning about the circulatory system and the heart, I will be letting the children observe me dissecting a cow's heart so that they can recognise the main features.

The children will not be handling it and will be observing whilst sat at their tables on the interactive whiteboard.

Please can you complete and return the permissions slip below to either give permission or objection for your child watching this activity. Please return the slip by Monday 7th February.

Many Thanks
Miss Stephenson
